## Save the Forest Week.

The health and prosperity of every person of every age and sex and of every strata of society, depend very much on the services forests render us. We receive either directly or indirectly from the forests food, clothing, shelter, health, happiness, recreation and inspiration.

"The leaves of the trees absorb the poisonous gases given off by the breath of man and beast and created by the burning of wood, coal, gas and oil, thus purifying the air and giving us health building oxygen."

Certain trees give us fruits, nuts, berries, maple syrup, flavoring extracts and other foods. All trees contribute to our food supply by preventing the erosion of farm lands, which is certain to result from the constant washing of rains and snows on lands that have not the protection of the roots of trees.

Ten billion dollars is invested in the lumber industry alone and more than half a million men labor in forest and mill. Other wood-using industries represent an even larger investment and the number of men employed, counting carpenters, cabinet-makers, planing mill workers and the host of men and women directly dependent on wood products for employment, exceeds the number engaged directly in the lumber industry.

Tremendous damage is wrought in Canada and the United States every year by forest fires. The real tragedy, however, is that 85 per cent. of these fires are men made—the result of human carelessness or human cussedness. We must stop forest fires.

Realizing the necessity for enlivening public interest in the forests, Canada and the United States are jointly observing Forest week—April 18 to 24. In Canada it is Save the Forest Week, and in the United States it is American Forest Week. Every citizen should take an active part in the observance of the week here.

## DIDSBURY SETTLERS DETAINED BY SICKNESS

William Rogers of Southampton, England struck a little trouble upon his arrival in Canada. With his wife and small daughter of two years of age, they came to the west, and the little one was stricken with pneumonia when Winnipeg was reached.

Mr. Rogers arrived in Calgary Wednesday morning, and was met by George Burrell, one of the officials of the Land Settlement Board. Mr. Rogers said the little girl was making good progress, and he deemed it safe to proceed westward. He is going to Didsbury, and will get the farm ready for the rest of the family when they arrive.

Special care will be taken of Mrs. Rogers and the baby when they get to Calgary.

## \$5,000,000 FOR RURAL CREDITS.

Rural credit legislation which the government will submit to the house provides for an initial subscription by the federal government of not more than \$5,000,000. The federal government will subscribe five per cent. of the capital stock as loans are made by the board, the provincial governments another five per cent. and each borrower will be required to put up five per cent. of his loan at the time it is made. The maximum of farm loan bonds which the federal finance minister may hold at any time is \$15,000,000.

## Time for Paint-Up

A new coat of Paint pays for itself many times over. It not only brightens up the building, but adds to its life considerably.

## But Get the Best.

WE HAVE A BIG RANGE IN PAINTS AND VARNISHES FOR CLEAN-UP DAY.

Congoleum Rugs, Linoleum, latest patterns.

## Bergen-Niche Valley.

Ira Gamble is home again after a five week's sojourn in the hospital at Didsbury. Earl Baughman very kindly brought him home with comfort and ease, after he had enjoyed his hospitality for over a week. "A friend in need is a friend indeed."

Dr. Evans has been out recently to see Dave Allen. He is convalescing.

James Davidson is in school again after a siege of pneumonia.

Most of the vacant land in this township has been leased for oil. If the railroad comes north from Cochrane we may get on our feet again.

Fred Admussen is helping John Haug on Eli Shantz place.

Charley Erickson buys raisins and sugar for his saw mill and not to make "red eye" as some seem to think.

Mr. Herron of Mayton, is the

new preacher for Bergen. It is too wet to work on the land for a few days at least.

## Burnside.

The meeting of the Burnside U.F.A., which took place last week, was very interesting and many subjects were discussed. Plans are already under way to make the annual picnic on June 30th, even bigger and better than usual. Keep the date in mind.

Manager Sharp put on a picture show at the Lone Pine Hall on Friday night which was attended by a full house. The play was "Behind the Front" and was much enjoyed by all present. Mr. Sharp expects to put on "Riders of the Purple Sage" in the same place on Thursday, April 29th.

In spite of the busy season there was a good attendance of ladies out to the Institute meeting at Mrs. Topley's on Thursday last. A good paper "Canadianization" and National Events" prepared by Mrs. E. R. Dawson, was read and discussed. The next meeting will be held at the home of Mrs. Noah Eckel on May 13th.

The baseball season is beginning again. The Burnside school has an excellent team busy practising. We predict good reports from these boys this summer.

Rev. Harber, pastor of Hillhurst Baptist church, Calgary, is expected to preach in the Lone Pine Hall next Sunday, April 25.

Mrs. Alex Lieper spent a few days last week in Calgary.

We extend our sympathy to Mr. and Mrs. John Koch in the death of their three year-old daughter.

## MUNICIPAL DISTRICT OF MOUNTAIN VIEW NO. 310

Arrangements have been made with the drug stores at Olds and Didsbury and with the Mayton store to supply the farmers of the Municipality of Mountain View No. 310 with one package of gopher poison for every one purchased and paid for by the farmer and in addition a bounty of 1-2 cents per tail will be paid by the Municipality for Gophers caught within the Municipality. Tails may be handed to the councilors or overseers for checking.

A. Brusso, Sec.-Treas.

## Stop The Flood

The problem of erecting an effective dam to stem the flood of United States publications, already large and steadily rising, pouring into Canada and tending to Americanize our social thought, national ideals and policies, has for some time occasioned serious consideration on the part of Canadian publishers, and is now giving concern to people who are in no way identified with the publishing business.

A large section of the Canadian people not strongly opposed to restrictive policies based on the protective principle, while others dislike the idea of placing a ban on the free interchange of reading matter, and all are more or less averse to the adoption of any policy which might be interpreted as unfriendly by our next door neighbors. But, as pointed out in last week's article in this column, the situation has become a very serious one not only for Canadian publishers, but for Canada as a national entity.

Prohibition of United States publications is not to be thought of, except in the case of those which overstep the bounds of morals and decency in their blatant attempts at sensationalism to whet the appetites and appeal to the morbidity of their readers. The United States should itself place a ban on these, and if it fails to do so there is no reason in the world why Canada should not protect itself by taking such action. Such publications are not necessary to any people. They serve no good or useful purpose, and are wholly harmful.

A suggestion recently advanced and now being widely discussed is that, while not placing any obstacle in the way of United States papers and magazines entering Canada, a tax should be imposed on the advertising matter contained in them. Canada is used as a "dumping" ground for these magazines and papers largely for the purpose of increasing circulation, thereby boosting advertising rates and revenue for the publishers and providing an avenue through which United States manufacturers and others can attractively place their wares before the Canadian public. These magazines are sold in Canada at a price considerably below the cost of production, and tons of them are carried annually by the Canadian post office department at an actual loss to the Government.

That these American publications are circulated in Canada solely in order to obtain additional distribution of these advertisements is fairly well demonstrated by the fact that in their literary contents little or no attempt is made to cater to the views and tastes of Canadian readers. They are "American," in the United States acceptance of that word, through and through.

Take the current issue of one of the weekly publications which has a very large circulation in Canada. It consists of 240 pages, printed on book paper, and each copy weighs over a pound and a half. It retails for five cents, or less than the cost of the white paper. Of the 240 pages, 94 are devoted to reading matter and illustrations all, with the exception of the front cover, printed in black ink. The other 146 pages are advertisements, and 64 of these are full page advertisements printed in all the colors of the rainbow, and then some—reds, blues, greens, purples, browns, yellows, pinks, mauves and varying shades and combinations of these colors. In a word, this magazine is mainly an advertising catalogue, and a beautifully attractive one at that, of United States goods.

If all this advertising matter entered Canada as a catalogue, or as straight advertising matter, thousands of dollars would have to be paid on it in Customs duties, but coming in under the guise of a magazine it is practically duty free. And in addition the Canadian post office distributes a large percentage of it for a purely nominal sum. It would cost these United States advertisers millions of dollars annually to themselves print and distribute this matter in Canada.

Therefore, it is argued, and with reason, that while United States magazines should still be allowed free entry into Canada, a tax should be imposed on the advertising matter contained in them somewhat comparable to the amount that would be collected if such advertising was sent in as such and not as part of magazine.

The effect, of course, would be a decided decrease in the number of such publications sent into Canada because the publishers, having to pay this tax, would be obliged to sustain the loss, or increase their subscription price in this country to cover it, and circulations would automatically drop. If the tax did not have this effect, then it would at least increase our national revenues.

Canadians may naturally object to paying largely increased prices through Customs duties imposed on foreign-made articles they require to purchase, and on Canadian-made goods the price of which is advanced under cover of tariff protection, but they are not likely to object to a tax being placed on the advertising propaganda of United States concerns canvassing for business in the Dominion.

## Children Cry for

### Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *W. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## House Adopts MacPhail Motion

### Resolution to Produce Productive Work For Penitentiary Inmates

After brief debate, the house at Ottawa adopted a resolution moved by Miss MacPhail that the administration of penitentiaries be amended to provide:

- (1) Sufficient productive work to keep the inmates employed;
- (2) That a share of the proceeds go to dependents, and in case of no dependents such share to be held in trust until release.

Miss MacPhail moved a similar resolution last session, but it was talked out.

Hon. Ernest Lapointe, minister of justice, supported the resolution, which was adopted without opposition amid applause.

Miss MacPhail explained it was her purpose to provide only for the production of goods needed by the Federal Government.

The resolution had been presented last year and had received very favorable comment. She believed it would have been adopted if the 6 o'clock adjournment had not arrived too soon.

## ALWAYS TIRED OUT

### People Who Feel Like This Need the Help of a Tonic

The dictionary defines a tonic as a medicine that increases the strength and gives vigor to the system. That tells why Dr. Williams' Pink Pills are a real tonic. Thousands of men and women are ailing to-day, not sick in bed, but without ambition to do a full day's work, though they are forced to keep on. They are always tired or nervous; do not sleep well, and awake in the morning unrefreshed. Many have headaches, backaches and stomach trouble. Such people need the tonic help of Dr. Williams' Pink Pills. The beneficial effects of this medicine reaches the whole system. Dr. Williams' Pink Pills do more than relieve the symptoms—they remove the cause. Mrs. E. Virginia Gray, Tofield, Alta., has proven the value of this medicine and says:—"I can sincerely recommend Dr. Williams' Pink Pills for a tired and run-down condition of the system. I have followed the nursing profession for a number of years and after a few weeks of hard or trying cases I take two or three boxes of Dr. Williams' Pink Pills, and always with the very best results. The pills also proved a great boon to my daughter at a trying age, and I have seen splendid results follow their use in other cases." Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams Medicine Co., Brockville, Ont.

### Through Service For Steamship Passengers

#### Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

### Advertising His Profession

A campaigner was constantly interrupted by a man in the crowd who kept shouting out, "Liar!" After about the twentieth repetition the speaker paused and fixed his eyes on his tormentor. "If the gentleman who persists in interrupting," he said, "will be good enough to tell us his name instead of merely shouting out his calling, I am sure we shall be all very much pleased to make his acquaintance."—Christian Register.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

A man is sometimes compelled to put up with those he does not love—pawnbrokers, for instance.

Pain Neuralgia Toothache Rheumatism

**DOES NOT AFFECT THE HEART**

*Safe*

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acid of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

## A Queer Family Group

### Chickens, Deer and Cat Live Together In Kansas Zoo

Perhaps the queerest family group lives in the Atchison Zoo, Kansas. In a pen live Dixie, buck deer, six chickens, and a big yellow alley cat. At night the deer curls up in its shelter and the cat and chickens hover in close proximity absorbing the warmth from the deer's body.

At feeding time the deer pushes its muzzle into the feed trough and then lets the chickens pick the bits of bran and grain from its face. And the cat has forgotten how to wash its face and hands. Dixie gives the cat a thorough tongue bath regularly.

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no halfway measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

## London's Oldest Industry

### Whitechapel Foundry Has Been Casting Bells For Over 600 Years

Probably the oldest industry in the metropolitan area of London is that of making church bells. A foundry in Whitechapel has been casting bells for over six hundred years, and is still so supreme that the whole world sends to it, or to another almost equally old firm at Croydon on the outskirts of London, when a reliable and true peal or carillon is to be constructed.

## Freak Linguistic Case

A freak linguistic case came to light at Honolulu recently in the court of domestic relations. Robert Soares, born there and now 11, cannot speak the language of Hawaii; that is, English, nor can he speak Portuguese, the language of his forebears. He is a fluent speaker of Japanese, however. He has lived with a Japanese couple since his parents deserted him.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

The Chinese use safety first methods in shoeing a horse, the mild-mannered beast being securely straight-jacketed for the occasion.

More illiterate hod-carriers reach the top of the ladder than men with college degrees.

## Chapped Hands

and other skin irritations are quickly relieved by a few applications of Minard's diluted with sweet oil.

## Cleans Like China

When you use SMP Enameled Ware Utensils, you never need to scrape, scour and scrub the way some wares demand. Hot water, soap, a cloth—that's all you need to clean them. It washes like china, has the cleanliness and surface of china, but wears like steel. Don't be the slave of your cooking ware; equip with clean, pure sanitary, lasting

**SMP**  
Enameled  
**WARE** 161A

**\$500 IN CASH PRIZES**

1st Prize \$100	5th Prize \$40
2nd Prize \$75	6th Prize \$30
3rd Prize \$60	7th Prize \$25
4th Prize \$50	8th Prize \$20

5 Prizes of \$10 each  
10 Prizes of \$5 each

Every contestant will receive a prize of at least \$2.50 value.

## COUNT THE DOTS

If you count the dots correctly and sell 10 tubes of Rust and Main Remover at 50c a tube, you will receive one of these prizes. And you will have a chance for the Big Cash Prize. When we receive your answer we will send you the Rust and Main Remover at once. Try your skill now.

UNITED SUPPLY CO., Dept. 41, TORONTO, 3

## SEES ENORMOUS ADVANTAGES IN HUDSON BAY LINE

Toronto, Ont.—Should the Hudson Straits prove the menace to navigation from Hudson Bay to Europe which some believe it to be, the Hudson's Bay Railway can still be a profitable proposition, Senator G. D. Robertson, former minister of Labor, has declared in an interview with the Star here. It will enable the iron ore deposits of Belcher Islands to be tapped and provide a route whereby that iron can be taken to the coal fields of Alberta, he pointed out.

The iron ore deposits around Lake Superior, Senator Robertson points out, are taken by water and rail to Pittsburg and the Pennsylvania coal fields. A similar transportation plan will take Belcher Island iron to the coal fields of Alberta and make Alberta what she is destined to become, the industrial area of Western Canada.

Senator Robertson pointed out to the Star that should the straits prove too dangerous, western wheat can reach Europe via the Hudson's Bay Railway to Port Nelson, thence by the sea route to Moose Factory at the south end of James Bay, and by rail to Quebec City, thence by steamer to Europe. Such a route would mean 300 miles shorter rail haul and 400 miles longer water haul than the lake and rail route via Fort William.

Grain carriers from Port Nelson to Moose Factory, he said, would find return cargoes from Belcher Islands, which are rich in iron ore. Belcher Islands lie at the east shore of Hudson's Bay where it narrows down into James Bay. These return cargoes would travel via the Hudson's Bay Railway to the main transcontinental line and to the smelters in Alberta. In addition, the north Saskatchewan mines would be connected with short branches to the Hudson's Bay Railway and the ores be taken to Alberta.

## Alberta Pacific Sold To Montreal Company

Business Will Be Carried On Under Old Name

Calgary.—At a special meeting shareholders of the Alberta Pacific Grain Company unanimously ratified the sale of the assets of the company to the Royal Securities Corporation of Montreal.

It is said the transaction involves more than six million dollars.

The purchasers of the assets will, it is understood, form a new company by the same name and continue the operation of the Alberta Pacific Company. It is stated that the present employees of the grain company will continue in their positions under the new ownership.

It is understood the transaction will be completed within the next few weeks.

Spillers, British milling interests, were among the principal shareholders in the Alberta Pacific, having purchased a big interest some time after they started their Canada venture.

## Expedition Has Left For Dutch New Guinea

Party Led By California Professor To Seek Pigmy Tribes

Batavia, Java.—The expedition headed by Prof. Matthew F. Sterling, Berkeley, Calif., sailed for Sourabaya to explore the unknown interior of Dutch New Guinea.

"If pigmy tribes are in New Guinea we will find them," declared Stanley A. Gedberg, historian of the expedition. He said they hoped to bring back interesting material, not only for science, but for the world in general, "for New Guinea is the last of the really unexplored countries of the world."

An aeroplane will be used for flying over the jungles and mountains.

Will Fly Around World  
Montevideo, Uruguay.—Major Larrea Borges, the Uruguayan aviator, has gone to Europe to purchase aeroplanes for the commencement of a world flight late in August.

The Uruguayan Government is sponsoring the venture.

W. N. U. 1624

## Last Week In The Alberta Legislature

Outlet to Coast For Peace River Country Discussed

Edmonton.—A statement of Alberta's situation with regard to the Edmonton, Dunvegan and British Columbia Railway was given to the provincial house by Premier Brownlee.

The interest of the province in the road at December 31, 1925, was \$19,650,543, and under present conditions was increasing at the rate of \$850,000 yearly. The province had endeavored to sell the railway, but without success, and the offers for leasing received from either of the transcontinental railways promised only nominal rentals, which would still leave the financial burden to be borne by the province. The situation was further complicated by an equity in the road held by the Royal Bank. The bank had originally asked \$2,400,000, but had ultimately reduced the sum asked for to less than \$1,500,000, though they had refused to allow the government to make the amount public unless they first accepted the offer. The government, however, would not pay more than \$1,000,000.

Premier Brownlee considered that this road was a responsibility of the Dominion Government. Premier Mackenzie King, prior to the last Dominion election, speaking at Edmonton, had declared that the provision of a coast outlet for the Peace River country was the spearhead of the Dominion Government's policy. To construct a coast outlet it would be necessary to take over the E. D. & B. C. He considered it would be a blot on the history of Canada if the Dominion made provision for the completion of the Hudson Bay Railway without also providing the Peace River country with an outlet to the coast. He did not oppose the completion of the Hudson Bay road, but said, "If you build the one, build the other." Immediately after the close of the present session of the provincial house, he and the minister of railways were going to Ottawa to urge this view on the Dominion Government.

In the meantime they would continue the present leasing arrangement with the C.P.R.

## Disastrous Fire Sweeps Banff Springs Hotel

North Wing Destroyed and Loss Will Be Nearly \$2,000,000

Banff.—A disastrous fire, which apparently broke out in the rotunda of the north wing of the famous Banff Springs Hotel, destroyed the wing, a four-storey structure, but the combined efforts of the townspeople of Banff, a large force of railway workmen and fire apparatus rushed from Calgary saved the south wing, and much of the valuable furniture in the section destroyed.

No estimate of the damage has been made by officials of the Canadian Pacific Railway, which owns the hotel, but it is believed it will be near the \$2,000,000 mark. In addition to the complete destruction of the north wing, considerable damage resulted to the newer central section. A stone tower situated between the two wings acted as a barrier to the flames which at times threatened to sweep the entire building.

Immediate steps will be taken to rebuild the section destroyed and to repair damage to the central tower and other sections of the hotel.

## Make Recommendations

Ottawa.—Representatives of railway brotherhoods made recommendations to Premier King and members of the cabinet including requests for restriction of the powers of the senate, support of old age pensions, increase of exemption under the income tax, and elimination under the income tax, and income taxes.

## Prince Is Recovering

London.—The Prince of Wales was sufficiently improved from his recent aural operation to undertake a motor trip to Sandwich. He will stay at a small house on Sandwich Bay, and plans during his visit to play golf on the nearby links.

## Fishing Boats Capsize

Tokio.—A message from Hokkaido, the northern island of Japan, reports that more than 80 persons are missing as the result of the capsizing of ten fishing boats in a storm.

## CHILLED BEEF EXPORT TRADE IS ADVOCATED

Toronto.—A chilled beef export trade for Canada and a steadier stream of live cattle to the English markets was advocated in the report of the Ontario agricultural inquiry committee, which was tabled in the Ontario Legislature.

In presenting the report, Dr. David Jamieson, chairman of the committee, pointed out that there should be a greater demand in England for Canadian cattle, which were reckoned as good as any in the world by the British feeders. The trouble was that the British feeder was not assured of a steady stream of cattle from Canada.

He was critical of the efforts of W. T. R. Preston, appointed by the Federal Government to investigate Canadian cattle shipments, stating that the mission had cost Canada \$35,456 and little or nothing had been accomplished.

It was claimed by Dr. Jamieson that the committee's activities had resulted in breaking up the North Atlantic shipping conference and the establishment of a Canadian conference, through which the live cattle trade from here to Britain will be materially assisted.

## British Diplomat Dead

Sir John Brown Noted For Achievements In Far East

London.—Sir John McLeavy Brown, noted for his career in the British diplomatic service in the Far East a generation ago, is dead, aged 84.

His most notable achievement in the Orient was his successful crossing of diplomatic swords with the Russian admiral, Alexioff, when the latter was first sent to Korea to attempt the peaceful, financial annexation of that kingdom to Czarist Russia a quarter of a century ago.

From 1898 to 1900 he was head of the customs and controller of finance in Korea. His career in the Far East began in 1861.

## Brisk Demand For Farm Labor

Workers Coming to Saskatchewan From Manitoba, Alberta and B.C.

Regina.—A brisk demand for farm workers is reported from the district employment service offices throughout Saskatchewan and labor is being imported from British Columbia, Alberta and Manitoba points almost daily. Up to March 1 this season a total of 263 farm workers have been brought in.

In addition, a large number of Scandinavian, Danish and English immigrants have been placed on farms for spring and summer work.

Allan Cup Defenders

The Port Arthur team, Dominion champions and holders of the Allan Cup, photographed outside the C.P.R. Windsor Station on their arrival at Montreal to defend their trophy against Toronto Varsity, amateur champions of Eastern Canada. Port Arthur travelled on the Imperial Limited from their home town, and after a thirty-hour trip were in fine condition for the crucial games, a sterling tribute to the smoothness of travel they experienced over C.P.R. lines.

## Physicians Test Out Combined Inventions

Possible to Get Accurate Record of Human Heart Beats

Chicago, Ill.—Staff physicians of St. Luke's hospital have combined two modern inventions, the radio-stethoscope and the electro cardiograph in a device which they believe makes it possible for a physician to get an absolutely accurate record of human heart beats.

The stethoscope's function is to amplify heart sounds. Hitherto it was pointed out, every physician who listened had a different ear and even when the sounds were filtered, disagreements in diagnosis resulted. The cardiograph has been attached to the stethoscope in such manner that the heart beats are recorded mechanically, thus doing away with a large amount of error.

## Questions Use Of Mounties In B.C.

Matter Placed Before House by Conservative Member For Victoria

Ottawa.—Hon. S. F. Tolmie (Conservative, Victoria) in a question placed on the order paper of the House of Commons, asks: "Does the Government of Canada still believe there is any necessity for maintaining the R.C.M.P. in British Columbia, having regard to the fact that the customs service are able to deal with the narcotic problem on the waterfront; also having regard that this work is also covered by the drug squads of the Vancouver and Victoria city police; also by municipal police throughout the province, as well as the provincial police, which covers the whole province, and has offices and large staffs in the principal cities of the province?"

## Big Development Plans

Company Will Spend Fifteen Million In Flin Flon Mining Area

Winnipeg.—A development scheme involving expenditure between \$10,000,000 and \$15,000,000 will be launched in the Flin Flon mining area of Northern Manitoba, as soon as a railway line is built into the area and tests for treatment of ore completed, according to J. P. Watson, head of the Mining Corporation of Canada.

The plans of the company, Mr. Watson announced, provide for the establishment of a town site, erection of a smelter with a capacity output of 2,000 tons of ore a day. It is also proposed to develop 30,000 horsepower on the Churchill River.

## Chinaman Robbed By Thugs

Edmonton.—Accosted by two thugs as he was proceeding home, Wong Kong Yee, a Chinaman, was assaulted and knocked unconscious after a severe beating up, and robbed of a sum of \$135.50 which he was carrying in his pockets at the time. The thieves also deprived the Chinaman of his overcoat and coat and vest.

## ATTEMPT MADE TO ASSASSINATE ITALIAN PREMIER

Rome.—Benito Mussolini, strong man of Italy, was near to death April 7 as he emerged from the Congress of Surgeons. He had raised his arm in salute to the plaudits of the multitude, when a woman pressed a revolver into his face and fired.

At that very moment, Mussolini, as is his habit, threw back his head, the bullet passed through his nostrils, and with a quick step backward, the Fascist premier put his hand to his face, and drew it away covered with blood.

His assailant, believed to be an Irishwoman, the Hon. Violet Albina Gibson, the 50-year-old sister of Baron Ashbourne, a resident of Compiègne, France, was seized by carabinieri and dragged to a place of safety, for in an instant the thousands who had gathered to acclaim the premier were in a frenzy of excitement and rage.

With Mussolini, at the time, were Professor Roberto Alessandri, and the noted surgeon, Raffaele Bastianelli, and they rushed to his aid. It was Bastianelli who dressed the wound and later he issued a statement, saying: "The premier was wounded by a firearm, the bullet perforating both nostrils, but without grave results."

Notwithstanding his injury Mussolini desired to enter his automobile, but he was induced to return to the capital. He was perfectly tranquil, seemingly not thinking of himself, and was only anxious that no grave consequences among the people should arise from the attempt.

"I desire that the country be not alarmed," he exclaimed. "I do not want reprisals. It is my will."

Shortly afterwards he reappeared before the crowd who cheered him and would have carried him shoulder-high. Mussolini smiled and again gave the Roman salute, and then drove away with Alessandri and Bastianelli.

## Bright Outlook For Western Farmers

C.P.R. Survey Shows Agricultural Conditions Are Favorable

Winnipeg.—Agricultural conditions in Western Canada, according to a survey just completed by the Canadian Pacific Railway presage a favorable outlook. Following the mildest winter on the prairies in many years, farmers are rapidly getting their land in shape and according to the report, seeding may be started, in the lighter soils, within a week.

The general rainfalls of last autumn and reasonable snowfall since, have assured practically all sections in the western provinces a sufficient moisture to meet spring requirements.

Acreage under cultivation closely approximated last year's figures, the report states. By provinces the acreage is shown as follows:

Manitoba, this year, 3,399,700; last year, 2,643,000.

Saskatchewan, this year, 7,448,485; last year, 8,555,183.

Alberta, this year, 3,015,486; last year, 2,721,089.

The aggregate is 13,863,671 acres, compared with 13,919,872 acres a year ago. The report adds that the ultimate cultivated acreage will be determined by the amount of spring plowing farmers are able to do.

## Dairy Pool Incorporated

Saskatchewan Has First Organization Under Agricultural Co-operative Marketing Act

Regina.—With an objective of 25 per cent. of the butterfat handled by the creameries of the province last year, the Saskatchewan Dairy Pool has been incorporated and officers and a provisional board of directors set up.

The total production of butter by the creameries last year was 16,000,000 pounds, and before the pool can operate it will be necessary to secure signatures of sufficient producers to provide for an outturn of one-fourth of this amount, the closing date for the sign up campaign being set as November 30.

The Dairy Pool is the first body to be incorporated under the new Agricultural Co-operative Marketing Act.

a LYNN REYNOLDS production

STIRRING ADVENTURE - THE TRIUMPH OF LOVE - THE GLORY  
OF CONQUEST ON THE WESTERN RANGES

A magnificent silver dish, twenty inches in diameter, presented by King Emmanuel of Portugal to the famous explorer Vasco da Gama in 1499, in recognition of the latter's discovery of the sea route to India, attracted much attention while on exhibition in the downtown offices of the Canadian Pacific Railway in Montreal.

On the night of January 14 the oldest wing of the Chateau Frontenac at Quebec was destroyed by fire, and within 24 hours a start had been made on the work of re-building. President Beatty, of the Canadian Pacific, says the new wing will still further enhance the beauty of that famous structure and that it will be 100 per cent. fireproof.

Teachers and educationalists from all parts of the Old Country gathered in London recently to discuss methods of teaching and suggested improvements of bringing up youngsters the way they should go. Among those who spoke were Sir Gilbert Parker, the famous Canadian writer; Sir Sydney Low, Imperial Publicist, and Dr. Stevens, President of the Head Masters' Association.

E. W. Beatty, chairman of the Canadian Pacific Steamships, stated recently that more liners of the "M" type would be built to replace older liners, such as the Marloch, Marburn and Montreal. The new ships will be similar in all respects to the S.S. Montclare and Montrose. The Marloch, Marburn and Montreal will be sold.

A fish caught in Shuswap Lake, British Columbia, after a forty-minute fight turned out to be a monster rainbow speckled trout, weighing 17½ pounds, with a length of 36½ inches and a girth of 24½ inches. It was mounted and exhibited in the windows of the Dominion Express Company, Montreal, before being shipped to the owner in England.

Live stock exchanges are to be formed in Montreal to prevent the sharp decrease in the number of cattle. In the period 1920-1924, there was a reduction of 331,000 head of cattle in the province of Quebec. Because of the low prices for live stock, the Quebec farmer has refused to face the long period of feeding and tending, and kills the calves.

## Local and General.

Olds has purchased a road-grader for use on its streets.

J. McDougall was a business visitor in Calgary over the weekend.

E. K. Pratt has purchased a Dodge sedan from Stevens Bros.

Frank Honeysett, who has been laid up with the "flu" is back on the job again.

Divine service will be held at St. Cyprian's church on Sunday afternoon, next, at three o'clock.

Cressman Bros. shipped out four cars of potatoes to Minneapolis and Chicago last week.

F. N. Ballard, formerly manager of the Union Bank, is renewing acquaintances in the district.

Miss Nina L. Redden arrived from Westminster, Mass., on Tuesday for a visit with her father.

Mrs. Mueller and Mrs. C. F. Rennie, who have been spending the winter in California, returned home last Thursday.

A. Traub has been away the past two weeks taking church services at Winterburn, Galahad and Carstairs.

Mr. and Mrs. Watt, Mr. and Mrs. McCloy, Bert Cressman, Tom Johnson and Roll Hawkes, motored to Innisfail Sunday for a game of golf.

Last week at Innisfail the town council agreed to the expenditure of \$3000 on public improvements, including roads and sidewalks.

Several of the directors of the Didsbury Sunburst Oil Co. will go down to the Kevin-Sunburst field this week to witness their first well being "spudded in."

B. Admusson of Bergen, was a business visitor in town Thursday last and reports farmers in his district have started ploughing. The land he states, is drying up very nicely.

Mrs. W. Finlay with her two daughters left on Friday for Calgary to meet Mr. and Mrs. Ambree, two missionaries who were passing through to Washington on furlough from Africa.

The warm spring-like days have tempted many of our residents into their gardens for a preliminary clean-up. If this is an indication of future intentions Didsbury should be well ahead in early garden produce.

The Olds School of Agriculture can now supply farmers with any quantity of cultures for legumes at a cost of 35 cents per bottle. It requires one bottle of culture to inoculate 60 lbs. of clovers and alfalfa, while one bottle will inoculate 120 lbs. of peas, vetches and beans.

Last week Kendrick and Good shipped a car of oats to the Municipal district of Deer Forks, Sask., for seed. They also shipped out three carloads of steers, the price being six cents. The same firm on Monday dispatched two cars of hogs for the Calgary market.

A temperance program will be given in the Evangelical church on Friday April 23, at 8 o'clock. A special request that all children who have taken part in the essay contest be present. Prize essays will be read and all shall receive a reward.

A report of the social service Council Convention, which was held at Edmonton, will be given as well as other interesting numbers. (Offering) All are welcome.

Mrs. A. C. Fisher returned home from the hospital on Wednesday.

One of our residents told us a very peculiar incident which occurred on Monday.

In walking down Main Street, and when opposite the Union Bank building, he noticed what he thought was a pretty good hat moving along the middle of the road, and went to investigate. Picking the hat up to his astonishment it revealed underneath the unruffled features of Alex. Guy.

"Whatever are you doing down there, Alex."

"Driving my team. Giddup there."

With gardening operations now proceeding, the thought comes to one whether it would not be possible to arouse even a keener interest by the formation of some organization. Various towns have their horticultural societies, others work in co-operation with their Agricultural society, but whether the one or the other, the main idea is to foster and encourage residents to improve their surroundings and thus incidentally help to beautify the town. Didsbury has all the makings, and judging from the fine gardens in the town last year, all the enthusiasm, it just lacks individual initiative to make the arrangements. Who will supply it?

## Oil Flows in the Sunburst Field.

The largest producer in the so-called Adams pool of the south extension of East Kevin-Sunburst was completed Thursday evening by the Glacier Oil company of Minnesota.

The Ellis sand was reached at 1462 feet and was penetrated but five feet when the oil rose 700 feet in the first 15 minutes, and it looked as though it was going to flow. Drilling stopped and preparations were made to handle the production. By Friday morning the oil mounted to 1300 feet and the drillers say it will flow when sybbed.

It is estimated at from 300 to 500 barrels as it stands and production may be increased by drilling farther into the sand. It will be placed in production for the present, at this depth.

The completion is significant since it indicates either a large pool extending southward from the Fulton rice group in section 31, or that the Adams pool is a separate one, with interesting possibilities, extending northward from the Adams-Habbing Faunce permit producers.

The well above mentioned and just recently brought in is situated in the same section as the Didsbury Sunburst Oil Co.'s lease, and is located about a quarter of a mile from the Didsbury Company's holdings.

The Kevin-Sunburst field produced 570,386 barrels during the month of March.

Five good producers, three of them flowing wells, were completed in East Kevin-Sunburst field during the past week, including another 800 barrel well on the Homestake State lease, a 300 barrel flowing well on the Rice Stannard lease and a 200 barrel flowing well on the Tri-State-Stannard lease.

## WILSON-RUGGLES

At St. Andrew's Manse, Olds, on Tuesday, April 13th, William Wilson and Sarah Ruggles, both of Didsbury, were united in marriage by Rev. J. C. Herbison—Olds Gazette.

## Town of Didsbury.

April 20, 1926.

**NOTICE**—All ratepayers and occupants of houses in the Town of Didsbury are hereby notified that the Town Council has decided to hold a clean-up period extending from this date until the first of May and all citizens are requested to do their utmost to clean up their yards and remove all manure from the alleyways. It is hoped that immediate steps will be taken to have this done in view of the early visit of the Provincial Sanitary Inspector who is going to make a rigid inspection of the town. By order of the Town Council.  
W. A. Austin, Sec.-Treas.

## Here and There

According to official figures issued by the Redemptorist Fathers about 300,000 pilgrims visited the famous Ste. Anne de Beaupre shrine during the season of 1925. Thirty-nine countries were represented. Of the number mentioned, 145,000 came by car and the remainder by train.

Seven Americans, touring the world on the Canadian Pacific liner "Empress of Scotland," welcomed the New Year from the top of the Great Pyramid in Egypt. Four young ladies and three men left their party camped on the sands of the Sahara and climbed the pyramid, "for a little excitement."

Two new steamship lines have made Halifax a port of call this year, and during the first six months of the year the increase in ship tonnage was over one million tons. For the ten months of 1925 the increase in ship tonnage, compared with the same period last year was over 1,500,000.

Canada's exports to Soviet Russia have increased three hundred fold during the past twelve months. Trade figures available show that in the twelve months ending October 31, Canada exported goods valued at \$14,000,000 to Russia, as compared to \$48,000 for the preceding twelve months.

Four international sporting events are to be held at Quebec in February. There will be the snow-shoe races, in which 3,000 will take part, including 1,000 men coming from the State of Maine; a hockey match between the Sons of Ireland and the Dartmouth College team; the Hubert Curling Bonspiel; and the International Dog Sled Derby.

## Church Announcements

### EVANGELICAL NOTES.

#### Church Services

##### Sunday

10.30 a.m.—Morning worship.  
11.30 a.m.—Bible School.  
7.30 p.m.—Evening Worship.  
8.30 p.m.—Senior League of Christian Endeavour

##### Thursday

7.15 p.m.—Junior League of Christian Endeavour. Study of Catechism, etc.  
8.00 p.m.—Praise and Prayer Service.  
H. E. Roppel, pastor

The W.C.T.U. annual program on Temperance will be given in the Ev. church, Friday of this week, at 8 p.m. This is a part of the educational work the W.C.T.U. is doing among the boys and girls of school age. The program consists of special music, recitations, etc., featured with the reading and rewarding of the prize essays on Temperance. A cordial invitation is extended to all.

"God's Twin Laws"—One tenth of man's income and one seventh of man's time, the latter, namely the "Sabbath" will be the pastor's sermon subject next Sunday morning. In the evening the subject will be "Spiritual Demands and Supplies."

Mr. and Mrs. H. Reiber spent last week-end visiting relatives in Calgary.

Owing to Mr. B. Frasch's declining health condition, he was obliged to go to the University hospital at Edmonton last Friday. Rev. Roppel accompanied him on the trip and remained with him over Sunday.

Mrs. Roppel occupied the pulpit here in the pastor's absence.

### ST. CYPRIAN'S CHURCH

(Church of England)

Services will be held in the above church on the second and fourth Sunday in each month at 11 a.m. and 3 p.m. respectively.  
Rev. H. Clay,  
Incumbent,  
Olds, Alta.

### LUTHERAN SERVICES.

Westcott, Alberta  
C. J. A. Nissen, Pastor

## Income Tax Is Cut Down.

Important changes in the income tax rates in addition to increases in the amount of the exemptions under the act, are contained in the budget, at Ottawa.

Under the amendments the rate of tax on the first \$2,000 or any portion thereof, in excess of the statutory exemption, is 2 percent. Under the old act, the exemption for married men was fixed at \$2,000 and for single men at 1,000. The rate of the tax was four per cent. up to \$6,000, when a surtax of one per cent was added. At \$8,000 the rate of the normal tax rose to 8 per cent. with a surtax of 2 per cent.

Under the act as amended in the budget, the amount of exemption in the case of a married man or householder, or other person supporting certain dependents mentioned in the act, is increased to \$3,000. In the case of other persons, the exemption is increased to \$1,500. When a husband and wife have each a separate income in excess of \$1,500, each of them receive exemption of \$1,500. There are no surtaxes under the amended act.

The changes in the Income Tax Act announced in the budget will apply to incomes of 1925 and thereafter, but cannot be acted upon until after an act has been passed by both houses of parliament and royal assent has been given.

Taxpayers may, however, on their own responsibility, estimate their own tax liability under the existing law or the budget proposals of April 15th, 1926, and

pay accordingly on or before the 30th of this month, but no assessment will be levied until after the bill becomes law. When approved, refunds will be granted in cases where overpayments have been made.

## Cut Worm Appears in South.

The army cut worm has made its appearance in the Lomond Enchant and Retlaw districts, P. L. Seamans, government entomologist, reports.

The worms are now half-grown and appear to be fairly numerous. War on the pest will be waged, the provincial government offering to apply the materials for bait

as they did in the instance of the grasshopper campaign. There is one feature of the outbreak that is heartening, and that is the chances for a wet year. Mr. Seamans says he has noticed that army worms and plenty of moisture go together, citing 1925, a bumper year, as an illustration.

## Here and There

Ike Mills, driving Brewster's famous Russian wolf hounds, won the Strongheart Trophy in the 96-mile Dog Derby race at the Banff Winter Carnival and soon after left to enter the American Dog Derby races which were held at Ashton, Idaho.

# FIRE THREATENS OUR NATIONAL HERITAGE

## Carelessness Destroys 3,000,000 Acres Annually of Canadian Forest

Loss of standing timber by fire continues to be appalling. On the average, over 3,500 million board feet are destroyed annually. The forests of Canada are being depleted at a rate they cannot possibly withstand; more than half of this depletion is due to fire, insects and decay. The future of the forest industry is just as dependent on the seedling trees and young growth as the pulp and paper and lumber mills, and industry generally, are dependent on mature timber—both must be saved from the ravages of fire.

In addition to the shelter afforded by the forest to the farmer and his stock, settlers in forested regions are vitally dependent on the woods for winter employment. Care with fire in land-clearing operations is all-essential—burned timber pays no wages.

Canada has the finest inland fishing in the world, but these splendid food and game fish require clean, cold water in the streams to ensure prolific reproduction. Forest fires are inimical to fish life.

Game animals attract foreign tourists and induce Canadians to seek pleasure, health and adventure in the great outdoors. These animals are distinctly a forest resource—utterly dependent on it for protection and food. Forest fires are most destructive of such wild life.

Ninety per cent of the forest fires are caused by carelessness. Are you doing your part to prevent this wanton waste and destruction?

CHARLES STEWART  
MINISTER OF THE INTERIOR

## THREE GENERATIONS REPRESENTED BY PARTY OF U.S. SETTLERS FOR SASK.

THREE generation of hardy Americans were represented by this first party of settlers to cross the line this season under the supervision of Prof. O. B. Grimley, land and colonization agent of the Canadian National Railways at St. Paul, Minn., who appears in the photograph in the centre of the back row. Twenty-four individuals, of whom 21 were bound for Lintlaw, Sask., where they bought land from the C.N.R. last year, and three for Kuroki, Sask., made up this advance guard of homeseekers from the United States. They brought with them five cars of effects, which include farm machinery and live stock. This entire party came from Thompson, N.D., Mr. and Mrs. E. Kennedy with their children and grandchildren, numbering 21 persons; Mrs. John Anglesburg, a sister of Mrs. Kennedy, accompanied her husband and daughter; Mr. and Mrs. J. C. Webber and small son, making up the balance of the party. The Kennedy connection is taking up four farms at Lintlaw. The movement of settlers from the United States has just begun, according to C.N.R. colonization officials at Winnipeg and W. D. Robb, vice-president in charge of that department, who has just visited the colonization branch offices in the Central States. The latter states that the flood of inquiries being received by the company this year are from a splendid type of farmer and a larger movement is expected this season than for many years past.—C.N.R. Photo.

## Builds up weak bodies

"Headaches, nervousness and dizzy spells were frequent. I wasted to 89 lbs. After sixth bottle of Tanlac, weigh 101 lbs., eat and sleep normally again, have no aches or nervousness."  
 Mlle. Jeanne Aubin,  
 1946 Chateaubriand Ave., Montreal.

From Mother Nature's storehouse we have gathered the roots, barks and herbs which are compounded, under the famous Tanlac formula, to make Tanlac.

If your body is weak and undernourished, if you can't sleep or eat, have stomach trouble or burning rheumatism, just you see how quickly Tanlac can help you back to health and strength.

Don't delay taking Tanlac another day. Stop at your druggist's now and get a bottle of this, the greatest of all tonics. Take Tanlac Vegetable Pills for constipation.

## WORLD HAPPENINGS BRIEFLY TOLD

The United States is to participate in the world's poultry congress to be held in Ottawa in 1927.

Thomas Burberry, the inventor of waterproof clothing bearing his name, died April 6, in England.

To commemorate Good Friday, King Alfonso commuted death sentences against nine persons, including two women.

Silver black foxes sold last year by fox farmers of Prince Edward Island had a total value of more than \$2,000,000.

Bringing virtually every city in the Pacific Northwest to within approximately 40 hours of New York City, the Pasco-Elko air mail service has started.

Traffic regulation of the pedestrian as well as the motorist was adopted as an underlying principle of the model traffic code at the national conference at Washington on street and highway safety.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

It is said that woman shares man's grief, doubles his joys and trebles his expenses.

Minard's Liniment for colds

"Keep inside those fire-lines, there!" "But I'm a reporter." "Well, if you want to know anything about the fire, read tomorrow's paper."

**Makes fine cream soups, delicious creamed dishes, gravies and beverages.**

Use it wherever the recipe calls for milk

W. N. U. 1624

## To Advertise Canada Abroad

Special Canadian Supplement of the Christian Science Monitor

What Canada needs at the present time more than anything else is advertising in those other countries of the world where there is capital looking for investment and people looking for opportunities to get away from forbidding conditions and establish themselves where they will have a new chance in the new world.

This country has got everything that the surplus men and the surplus money of older nations may be looking for—everything in the way of opportunity for the investment of capital and where landless people can acquire homesteads and set up enterprising communities.

The time is ripe for Canada to present her case to the world and in securing this foreign advertising, we believe the special Canadian supplement to The Christian Science Monitor which will be issued next month will do important service. There will be an issue of 250,000 copies, of which 100,000 will circulate in the United States, 50,000 in Europe and Australia and 100,000 in Canada, largely for mailing abroad.—Toronto Star.

Fabric Combinations Achieve Smartness in Two-Piece Frocks

Fashion's fancy for combining two materials in one costume is charmingly expressed in this model which has flaring skirt, round collar and bands on the sleeves of navy-blue taffeta plaided in red, yellow and white, while the overblouse is of navy-blue crepe satin. Raglan sleeves are a feature of the blouse, which slips on over the head, fastening under a flat plait, and is banded at the hips, giving the new bloused effect. The skirt is moderately circular, opening at the side front and joined to a fitted band at the natural waistline. If desired, the side front opening may be omitted and the front made in one piece. The blouse, No. 1062, is in sizes 16, 18 and 20 years (or 34, 36 and 38 inches bust only). Size 18 years (36 bust requires 2 1/2 yards 36-inch material. The skirt, No. 1067, is in sizes 26, 28, 30, 32 and 34 inches waist. Size 28 waist requires 2 1/4 yards 42 or 54-inch material. Price 20 cents, each pattern. Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

## How To Order Patterns

Send 20c coin or stamps (wrap coin carefully)

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

There are 9,577 electric signs in New York City.

## Engineer Evolves Aerial Train

Dirigibles Linked Together Will Have Speed of 100 Miles An Hour

An aerial train consisting of separate dirigibles linked together, has been evolved by a Detroit engineer. It is to be completed by June 1 at an estimated cost of \$2,500,000. This ship will have four units and be capable of transporting 240 passengers, 24,000 pounds of luggage and forty tons of express and mail. Another departure from existing types is the plan of the inventor to equip the ship with wings, of which each unit will have four. The estimated speed of the train is 100 miles an hour.

## "DIAMOND DYES"

## COLOR THINGS NEW

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

## Northern Ireland Has Many Autos

Northern Ireland, although better served by railways than the Irish Free State, has an automobile for every forty inhabitants. In Southern Ireland there is only one motor vehicle for every eighty inhabitants.

## The Best Medicine I Have Ever Taken

So Says Mr. Arthur Simmons Of Dodd's Kidney Pills

P.E.I. Man Used Them For Sore Back and Headaches

Miscouche, P.E.I.—(Special).—That Backache and Headaches are caused by weak kidneys and that the right way to treat them is to use Dodd's Kidney Pills, is again shown by the experience of Mr. A. Simmons, a well-known and highly respected resident of this place.

"Dodd's Kidney Pills have been a great help to me. Before I started to take them I had severe pains in my back and suffered with terrible headaches. I felt well after I had taken the first box and now I am taking them all the time. They are the best pills I have ever taken."

The work of the kidneys is to strain the impurities out of the blood. It is necessary work if the body is to be kept healthy. It is a trying work, for the kidneys are constantly in contact with the seeds of disease.

Boys outnumber girls in the Mallin, Ore., public school, and the last graduation class was composed entirely of boys.

Minard's Liniment for sore throat

Toasting bread converts the starch into a more easily digested substance, dextrose.

Some people believe in luck just because they never have any.

## Still Enjoying Life at 84

Thanks To That Wonderful Remedy

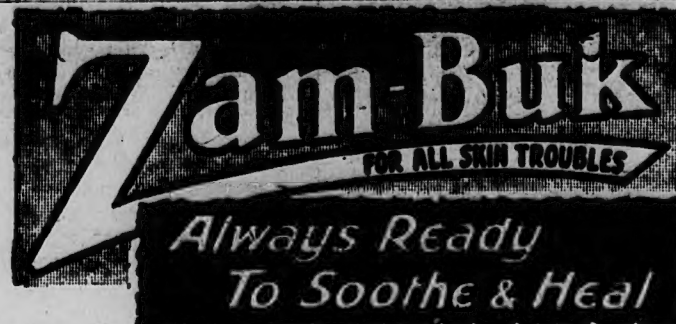

Mrs. F. H. Miller, 1843-11th Ave. East, Vancouver, B.C., writes:—"Five years ago my husband suffered terribly with severe attacks of palpitation of the heart and smothering spells, and two doctors stated that he could not possibly live six months."

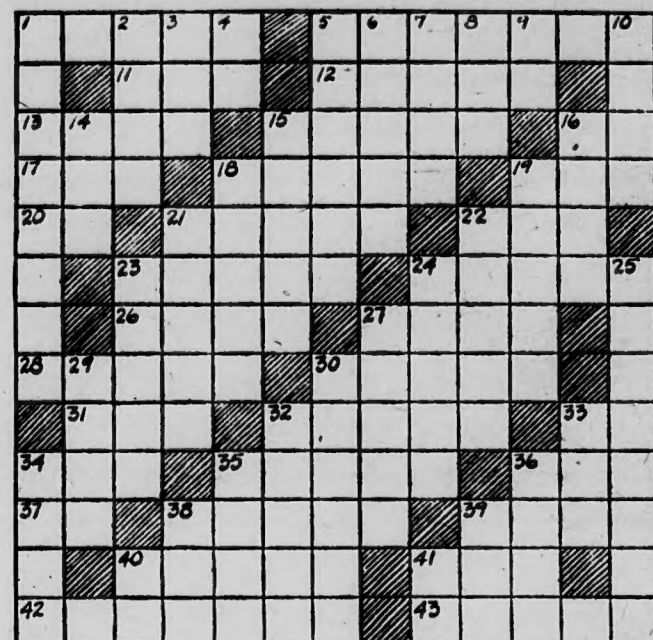

A friend recommended Milburn's H. and N. Pills, with the result that my husband is still enjoying life at the age of 84 years.

He has improved so wonderfully that he can now climb the stairs without having those awful pains in his heart."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## OUR CROSSWORD PUZZLE

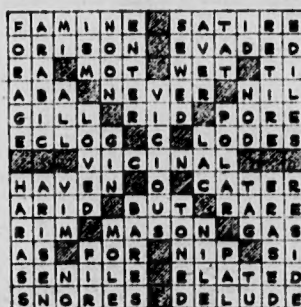

**Horizontal**  
 1—Part of a play.  
 5—Fastens.  
 11—Cover.  
 12—Less ruddy.  
 13—River of Russia.  
 15—Protective covering of cloth.  
 16—Preposition.  
 17—Heir.  
 18—Assemblage of ships.  
 19—Rotund.  
 20—After Christ (abbr.).  
 21—Aches.  
 22—Obstruct.  
 23—Wearied by dullness.  
 24—Inn.  
 26—Legal claim upon property.  
 27—Possess.  
 28—Revolves.  
 30—Ceremonials.  
 31—Insect.  
 32—Responsibilities.  
 33—Near.  
 34—Strange.

**Vertical**  
 1—Minced meat seasoned with sage, salt, pepper, etc. (pl.).  
 2—Ardor inspired by enthusiasm.  
 3—Nothing.  
 4—Man's name.  
 5—Subjoin.  
 6—Nostrils.  
 7—Coagulate.  
 8—Female bird.  
 9—Correlative of either.  
 10—Mark.  
 14—Wand.

15—Foreign.  
 16—Domesticate.  
 18—Transportation charges.  
 19—Rulers of destiny.  
 21—Indicate.  
 22—Birds of peace.  
 23—Sightless.  
 24—Displaced.  
 25—Lamps.  
 27—Engages.  
 29—Cushions.  
 30—Swift current in a river.  
 32—Carnivorous furbearing animal.  
 33—Wing-like organ.  
 34—Cereal grass.  
 35—Grow pale.  
 36—Melodies.  
 38—Female deer.  
 39—Fifth sign of the zodiac.  
 40—Initials of famous American president.  
 41—Suffix denoting agent.

## Answer to Last Week's Puzzle

## Find Ammunition Cache in Dublin

Two tons of high explosives, 285 live bombs and hand grenades, 5,000 spare parts of bombs, 5,000 pounds of rifle ammunition and 10,000 detonators in addition to bombing machinery, have been found in a stable in North King Street, Dublin.

## Healthy Mothers! Healthy Children!

—The Shaw Studio

## Mrs. Phebe Claus

Hamilton, Ont.—"I wish I were able to convey to every weak and ailing woman the value of Dr. Pierce's wonderful medicines and what they have done for me. I am the mother of six children and Dr. Pierce's Favorite Prescription was the only medicine I ever took during expectancy. I always got along fine, it kept me so well and strong that I was able to do my work right up to the last and I did not suffer with any of the troubles that come to most women at that time. Also I had very little suffering. My children were all healthy and strong and I regained my strength very quickly afterwards. 'Favorite Prescription' is the greatest medicine a woman can take.—Mrs. Phebe Claus, 56 Clyde St. All druggists. Tablets or liquid.

Send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., if you desire a trial pkg. Favorite Prescription tablets.

## SUNDAY SCHOOL LESSON

APRIL 18

## THE BEGINNING OF SIN

Golden Text: For as in Adam all die, so also in Christ shall all be made alive. I. Corinthians 15:22.

Lesson: Genesis 3:1-24.

Devotional Reading: Psalm 1.

## Explanations and Comments

The Temptation of Sin, verses 1-5.—Read The Historical Background. The story begins with the words, "Now the serpent was more subtle than any beast of the field which Jehovah God had made." The serpent is here the power of evil personified. It is Milton, not Genesis, that calls the serpent Satan. It is easy to see that the serpent is made the symbol of temptation because of its glittering eyes, twisting coils, stealthy motion and deadly fascination.

The serpent shows his subtlety in his first remark to the woman—whom he holds more susceptible than the man. "Yea, hath God said, Ye shall not eat of any tree of the garden?" he questions. The interrogative sentence is also exclamatory and is designed to arouse distrust in God. Dr. Skinner gives the thought finely by translating it, "Ay, and so God hath said that you shall not eat the fruit of any tree in the garden!" and finds the range of the prohibition purposely exaggerated in order to provoke inquiry and criticism.

"The serpent is entirely incidental. No serpent from without can ever tempt a man unless there is a serpent of lawless desire within."

## CHAPTER II.—Continued

The sudden sight of the fineries she could not afford, either to have or not to have, sent her into a torrent of hysterical laughter. Graydon gave the secretary a hasty sign. Both waited until the girl in the chair quieted, her laughter dying away in stifled sobs. The secretary moved towards her, then, and held out her wrap.

Automatically Joanna drew the cloak around her slender figure. Then she fixed her hat. Suddenly she turned, faced Graydon again and cried out to him:

"But what am I to do—with the money?"

The man answered in the even, curiously convincing manner that so completely baffled her: "That is one of the questions I may not answer. I shall be eager to know what your decisions will be."

The secretary would have comforted the girl; would have taken her arm and led her out into the store and to the street, but Graydon stayed her with a motion of his hand, as if whatever Joanna was to face, she must face it alone. Joanna groped her way across the office and the reception room. The secretary held open for her the outer door. For a moment she leaned against it. Before her eyes the busy people who hurried through the passage ways between the partitions of the cubbyholes on the "office floor" seemed to be swimmers in a whirlpool. She felt that Graydon had followed her and was standing close. Without turning she asked, her voice rising barely above a whisper:

"Which way do I go?"

## THIS WOMAN NOW WELL

Her Suffering Relieved and Health Restored by Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I am certainly very grateful for the benefit I have received from Lydia E. Pinkham's Vegetable Compound, also the Sanative Wash and the Liver Pills. In the early spring I was suffering so much from loss of blood that I thought I would never be any better as doctor's medicine relieved me only for the time being. I saw the Vegetable Compound advertised in the 'Toronto Star,' and I find the Vegetable Compound Tablets the best for me. I have been taking them since Spring, and I intend keeping them by me all the time. After reading your Private Text-Book I saw it was necessary to use Lydia E. Pinkham's Sanative Wash, and I can safely say I feel a different woman. My friends remark how well I look. I am a very busy woman, but I am ready at all times to boost your medicines."

Mrs. CHARLES GIFFIN, 949 Landsdowne Avenue, Toronto, Ontario. You may be having an experience similar to Mrs. Giffin's and will be interested to know what she did. Every sick woman can feel confident that Lydia E. Pinkham's Vegetable Compound will help her, since we are told that it does help 98 out of every 100 women who take it.

## Motor Run On Charcoal

Fuel Cost Only \$2.35 For Trip of 450 Miles

A Swedish-built motor truck, equipped with a charcoal-burning generator and carrying a load of two and a half tons, has completed a trial trip between Malmö and Stockholm, a distance of 450 miles. The total fuel cost is declared to have been approximately \$2.35.

Experiments with charcoal generators have been going on in Sweden for some time, as well as with the use of a mixture of gasoline and wood alcohol. Both methods are said to have been perfected for commercial purposes. Sweden has no domestic petroleum supply.

would have concluded that they stamped him as one who harbored the conviction that he knew all sorts of women and classified them none too pleasantly.

The same analytical observer would have said of Eggleston, arbiter of many of the world's most important affairs that he was a man who had lived a life in which women had been a useless ornament.

When Joanna was out of the presence of Graydon and the quiet effectiveness of his secretary, a quietness and an efficiency that both depressed and fascinated her, her dazed numbness quickened suddenly into a feverish excitement. That she had become a ghost in some fantastic masquerade, she was sure. But the thrill of it made her pulses leap. She wanted to rush to the silk counter and confide her amazing mystery to her chums there; even to confront "Mr. Good-Morning," with a pose that would achieve its climax with the banker's letter under his nose. Then she decided that such a display would be premature. By this time she was at the street entrance. The first test had come. The "Old Man" had told her to ask the doorman for his car which, he had said, would be waiting for her at the curb. She decided to try it.

To her amazement the doorman, resplendent in his conglomerate livery, seemed to expect her. A wave of his hand brought the limousine to the space opposite where she waited. The "Old Man's" chauffeur descended and held open the door. As she approached him her eyes widened, he touched his cap. When she would have looked at her letter to find the address, he interrupted:

"I know where, Miss! Mr. Graydon gave instruction. It's to the bank."

Never before, it seemed to Joanna, had a car taken so long to go wherever it was headed for. Yet, really, the chauffeur threaded traffic skillfully. Joanna's excitement turned suddenly to panic when she realized that her driver was holding his arm to ease her to the pavement, with the arched stone portals of the bank looming in front of her. A doorman responded to a sign from the driver. There was a low word between them. The doorman touched his cap.

"I am to take you to Mr. Eggleston's rooms, Miss," he said, with a deference which Joanna recognized at once. Eggleston, she understood was the man she was to see. The utter drama of it all appalled her again. She looked into the chauffeur's face and caught, there, a gleam of understanding that, after all, she was just a girl of the shops whose tinselled glory, whose ornaments, airs and fashions were only gaudy imitations of the fabled vogue of smart debutantes. She grasped at him as a friend.

"Tell me," she pleaded, startling the stiff formalities of the driver of her employer's private car, "What is it they're doing to me?"

The "Old Man's" chauffeur dropped his fingers from his cap and, in the

face of this re-arrangement of caste at its proper level, immediately unbent to "Miss Twenty-seven of the silks." He spoke confidentially:

"I tell you, Miss, I know nothing except that I was to bring you here to old Eggleston's bank. But this I'll tell you, too, if you take it from me my boss and your boss is o.k., but if he's sending you in to see his grouchy pal Eggleston, there's somethin' doing. And when there's somethin' doin' over a pretty kid like you, watch your step girlie; watch your step! And maybe you'd better give me your number so I can call you up when I'm off duty after ten. You're the kind that looks too good to be true."

(To be continued)

## Cat Worries Sheep

It is rarely that farmers experience trouble through cats worrying sheep, but George Sperson, of East Grey, Ont., reports that recently he was forced to kill a cat which had worried two sheep to death.

## Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

## NERVILINE

### A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c bottle of Nerviline to-day; it will make you well quickly."

### A Super-Centurian

Ireland, famous breeding ground of hale and hearty old men, has produced a super-centurian. He is William Smith, of Dromara, County Down, and has celebrated his 125th birthday. He was middle aged, according to ordinary standards, when he went off to fight in the Crimean War. His most strenuous exercise nowadays is walking a mile each Friday to receive his pension.

## SIXTEEN YEARS USE OF BABY'S OWN TABLETS

### Has Shown One Mother There is Nothing to Equal Them

A constant use of Baby's Own Tablets for their children has proven to thousands of mothers that they are without an equal for babyhood and childhood ailments. One mother, Mrs. C. W. Jackson, R.R. 1, Gilford, Ont., writes: "We have used Baby's Own Tablets ever since our first baby was born sixteen years ago. We have fine healthy children and the Tablets is the only medicine they received in their early years. Our baby is one and a half years old, is walking and talking and weighs 25 pounds. Baby's Own Tablets is the only medicine he has ever had."

Baby's Own Tablets are guaranteed to be absolutely safe for even the newborn babe. They are free from opiates and narcotics; act as a gentle laxative on the stomach and bowels and thus relieve constipation and indigestion; break up colds and simple fevers and make baby healthy and strong.

You can get Baby's Own Tablets from your druggist or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Little Helps For This Week

I will help thee, saith the Lord. Isa. xli, 14.

There ran a whisper through the list ening sky.

"Look up and fear not, do thy work in joy;

Train nerve and sinew in the glad employ

Of simple souls that neither strive nor cry;

Drink happy draughts of love that will not cloy;

Life shall not fall thee, for thy Lord is high."

When do we lift each other up? Must we gain a height first, or can we reach up our feebleness together to the hands that do offer us a mighty help from on high? Near-doing, and near-living, and near-loving, these life particles make the great heaven, as the little polarized atoms of light, all magnetized one way, make the great blue in which the stars burn forever. —Adeline T. D. Whitney.

Minard's Liniment used by physicians

## Nurse's Advice Rid Her Of Pimples

Brooklyn. Mrs. Minnie Fensere writes:—"My pimples and black heads got so bad I feared it was eczema. I confided in a nurse friend of mine. I had been troubled with constipation and indigestion for some time. She advised me to try Carter's Little Liver Pills. You can see by my picture that the treatment has done wonders, and I am now free from constipation. Chronic constipation many times causes pimples. Carter's Little Liver Pills encourage the bowels to eliminate the poisons. Druggists, 25 & 75c red packages."

## Clever Artist Was Handless

Trained Himself To Hold Brush and Pencil With Toes

Alexander Alexander, who although born without hands gained a considerable reputation as an artist, has just died at Edinburgh.

On several occasions he had paintings hung at exhibitions of the Royal Scottish Academy, in one year two pictures being accepted.

Since boyhood he had trained himself to hold brush or pencil with his toes.

When a valuable miniature, about one inch in size, by a famous Italian artist, was defaced, Mr. Alexander undertook the delicate work of restoration, and completed it in 12 days.

## LEG SORES

ARE CURABLE. If you suffer from Leg Sores or Varicose Ulcers, I will send you ABSOLUTELY FREE a copy of my famous book that tells how to be rid of these troubles for all time by using my remarkable painless treatment. It is different from anything you ever heard of, and the result of over 35 years specializing. Simply send your name and address to Dr. H. J. WHITTIER, Suite 29, 421 East 11th Street, Kansas City, Mo.

## Hemorrhoids That Shockingly Painful Affliction

There are few of us who have not suffered from this trouble, but little do we realize that in most cases it is due to our own neglect.

Medical authorities agree that Hemorrhoids (piles) could be largely avoided were one to assist nature by observing nature's laws.

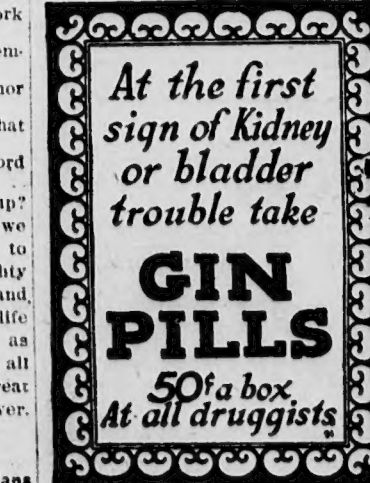

Hemorrhoids are most frequently brought about as a result of constipation. Therefore, assist nature by assuring an easy passage of the waste matter, and this can best be done by the use of Nujol.

Nujol simply softens the waste matter, and thus permits regular, easy elimination, without any overtaxing of the intestinal muscles.

Nujol, the scientific internal lubricant, replaces the lack of nature's lubricant, and obviates the possibility of constipation.

Ask your druggist for Nujol today and remember—look for the name "Nujol" in red on both bottle, label and package.

## Council Has Well-Assorted Menu.

At the meeting of the Town Council on Monday night, the members had no reason to complain the absence of variety.

The subjects included matters connected with the erection of a hospital at Olds, during the discussion on which one gathered the impression that, to put it in vulgar parlance, Olds was trying to put one over on Didsbury. Our sister town, it seemed had conceived the idea of erecting a municipal hospital district, and with this object in view had prepared a plan which took in all the territory within three miles of Didsbury.

Mayor Chambers stated he had phoned Olds and asked them to take in Didsbury—into consultation, that is,—but Olds had distinctly refused.

Didsbury is thus left to husband its own resources, and there for the present the matter lies.

Then the Council took up, in rapid fashion roads and sidewalks, beautifying the C.P.R. park, the planting of trees and the emptying of cesspools, the duties of the town policeman and the hours of the town scavenger. They also decided to have a clean-up day, and a complaint having been made relative to awnings being too near the pavement, this also was discussed and handed over to the town policeman for investigation.

## Innisfail Congratulates Didsbury on Mitchell Cup.

### Olds Says—Wait Two Years

The annual meeting of the Innisfail Curling Club was held last week, the financial statement showing a balance on hand for the year of \$175.

Included in the business transacted was the question of holding a bonspiel in conjunction with Didsbury, Olds and Crossfield, and the secretary was instructed to communicate with the secretaries of the curling clubs in these towns with a view to having a joint meeting and going into the question and bring in a report at the semi annual meeting.

It was also moved by F. Bye, seconded by J. W. Wilson that the secretary be instructed to write the Didsbury Curling Club congratulating them on the winning of the Mitchell cup.

The above annual meeting was stated to be one of the most successful in the history.

The Olds Curlers' Club held their annual ball last week, which resulted in a financial surplus. The aftermath of the winter, says the report, which brought nine inches of snow and three below zero weather during the Easter week, enabled the curlers to finish up the season's games, which had been halted by the previous warm weather. On Easter Monday the Samis rink cinched the Marchal cup, but the fate of the Mitchell cup is still in doubt. This year was supposed to be the last to be played for that trophy, but as some records of previous years' games have been lost there is a possibility that the cup may be played for two years more before it finds a final resting place.

## Choosing a Candidate for Didsbury.

An election in the offing is furnishing the various constituencies in Alberta with the excuse for party meetings and the choosing of candidates.

William Laut, merchant, of Crossfield, Alberta, was unanimously nominated to contest the Cockrane-Crossfield constituency, on behalf of the Liberal party, at the open convention of electors of that constituency, held in the sun parlor at the

**Cressman Bros.**

Palliser hotel, Calgary, Wednesday afternoon of last week.

A dispatch from Drumheller states that invitations have been received by different Drumheller labor leaders, inviting them to Farmers-Labor convention being held at Acme in the near future for the nominating of a candidate for the Didsbury constituency in the coming election. While no one doubts but that the sitting member, A. B. Claypool, will receive the nomination, the invitation is significant, while the term Farmer-Labor is an indication of the fact that the farmers intend to make a straight bid for the Labor vote in the Red Deer Valley portion of the Didsbury riding.

Mr. Claypool swung quite a portion of the Labor vote in Drumheller during the last election, and no doubt is counting on his local followers repeating in the same manner. With Premier Brownlee wooing Labor, and Leader McGillivray of the Conservative party having played his cards, so as to have appealed to a certain section of the Labor vote, little Miss Labor has been a much courted girl, besides this is springtime and love time; and July, election month, is not very far away. Then again, the farmer-Labor convention may be another way of killing the political cat, and warding off a straight Labor candidate in the Didsbury riding.

## Crop Report.

Weather conditions during the week over Manitoba were of a varied character, the earlier portion was comparatively warm and farmers were in most districts to get in two or three days' work on the land according to report of the Agricultural department, Canadian Pacific Railway, towards mid-week, temperatures dropped and the soil became so frozen that further operations had to be discontinued, and the expectations of an early spring opening indicated by conditions during the latter part of March did not materialize.

Considerable spring work was done throughout the province of Saskatchewan during the past week, under comparatively favorable weather conditions. On the lighter lands, a good deal of seed has gone in, the soil generally being in satisfactory con-

dition for its reception.

In Alberta good weather for some days past has enabled farmers on all but heavy soils to get on the land. Things have been drying up rapidly and seeding will be general this week. Farmers are very optimistic due in part to the satisfactory condition of the soil and partly as a result of their better financial standing on account of the good prices realized or the 1925 crop. Requests for farm labor have not been very heavy and a good supply of men is available so that no difficulty in this regard is expected. Cattle are in excellent condition and with the warmer weather and fairly ample moisture, pastures are coming along nicely. The condition of the horses on the range is reported to be somewhat poor, but they will pick up rapidly if the weather continues favorable. A specie of worm known as the army cut-worm is appearing in the Lomond, Armada and Retlaw districts on the Suffield subdivision. Farmers, on account of the presence of this pest have discontinued seeding, an entomological expert of the department of Agriculture has been on the ground, and has advised farmers to put in their seed and follow up with bait before the grain comes through the ground. Bait will be supplied by the provincial government as in former years. The army cut-worm only lasts one season, when it is destroyed by its natural enemies. A number of farmers have decided to hold off seeding until May 10th, after which date it is considered there is no further danger from this source. Seeding has begun at a number of points on the following subdivisions—MacLeod, Stirling, Bassano, Gleichen, Lacombe, Taber, Aldersyde, Red Deer, Langdon, Suffield, Irricana, Hardisty and Brooks.

"Wages for Wives," the William Fox production of John Golden success, "Chickenfeed," comes to the Didsbury Opera House, on Saturday, next.

This clever comedy drama is based on the moot question of whether wives should be paid for their household services or not. It is filled with laugh provoking situations and the characters are very real indeed. So real are they in fact that more than one member of the audience will recognize their next door neighbor among them.
